WORKSPACE

PREMIUM OFFICE IN DOWNTOWN SAN LUIS OBISPO

SAN LUIS OBISPO COLLECTION

WORKSPACE

It would be easy to frame San Luis Obispo by talking about its historic Spanish Mission, built in 1774, but that would be missing the point. This is a city that has always punched well above its weight, and has always looked forward just as much as it treasures its unique place in California history. Today's SLO (as locals call it) is experiencing a renaissance on many fronts, from the phenomenal growth of its tech sector, to the completion of numerous premier hotel properties and mixed-use developments in and around the downtown core. Cal Poly's growing status as a leading tech-focused university, has brought a younger, well-healed demographic to the region. Its pleasant year-round climate, beautiful coastline, pristine beaches, and an increasingly energetic wine and spirits industry has made San Luis Obispo a magnet for visitors and entrepreneurs alike.

Each workspace in the San Luis Obispo Collection is unique. Historic buildings in the downtown core have been re-envisioned to provide innovative, modern office spaces. Newer mixed use developments are uniquely situated adjacent to City and County Government centers, and have been appointed with the contemporary features you'd expect from premium downtown offices. Each of these spaces sits in the center of Downtown San Luis Obispo's vibrant *Urban Coastal* culture, with quick access to all the amenities of today's downtown lifestyle.
